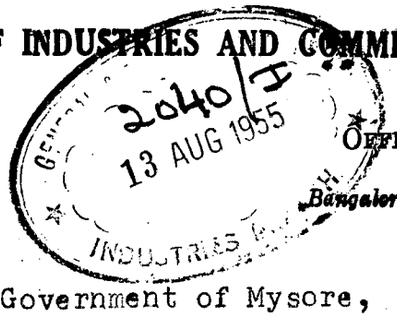
DEPARTMENT OF INDUSTRIES AND COMMERCE



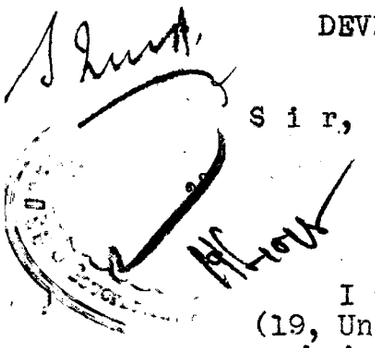
Ref. No.GEF/35-1992/55-56. Office of the Director,

Bangalore, 3rd August 19 55

9

The Secretary to the Government of Mysore,

DEVELOPMENT DEPARTMENT, BANGALORE.



S i r,

Sub:- Membership of the Indian Standards Institution, Delhi.

I write to state that the Indian Standards Institution, (19, University Road, Civil Lines, Delhi) is doing very good work in the field of drawing up agreed standards for the several materials and products used in Industry and Trade. It is learnt that almost all manufacturers of repute in the country have become members of the Institution and it was considered essential that the Government Electric Factory being one of the important concerns within the country manufacturing transformers, line materials, scientific instruments, etc., which are finding a sale all over India should also become a member. This proposal was made with the object of not only getting the factory to take immediate note of all developments regarding standardisation of materials but also to put-forth its own point of view as a manufacturer when proposals for standardisation of its products are examined. It is a matter for gratification to record here that Sri M.S.Kesavan, Mechanical Superintendent of the factory has been taken as a member for the Sub-Committee for Water Meters. He has attended two meetings and his participation has been of great value in that we have got an idea of the present position of the Water Meter Industry and the points to be taken into account for its future progress.

Apart from the advantages enumerated above, the factory will get the Institutions' Journal free and the standards as and when they are issued. This will be of much use to us and serve as a reference for our technical staff.

The factory has paid membership subscription for one year commencing from 1-2-1954 ~~to the Indian~~ to the Indian Standards Institution, after getting my approval. The subscription has to be renewed for another year from 1-1-1955, and the Institution has reminded the factory.

It will be seen that it is incumbent on the manufacturer of an article to keep to definite standards of quality and no other authority exists in this country than the Indian Standards Institution for laying down such standards. The maintenance of such standards is a necessity in the interests of all concerned and requires the co-operation of both the consumer and the manufacturer. The factory, by becoming a sustaining memberof the Institution will have the necessary status and authority to tender its advice regarding the standards to be prescribed and this will enable the point of view of the factory to be heard at the proper time and also to bring out the difficulties and problems which may exist in regard to the

Contd.

the adoption of such standards. Apart from these aspects there is also the contact provided with other manufacturers during the meetings and discussions which would enable the factory to improve its methods of manufacture. Taking into consideration all these advantages, it is considered necessary for a factory of this magnitude to become a sustaining member of the Institution.

I request you kindly to obtain and communicate early sanction of Government for the Government Electric Factory to become a sustaining member of the Indian Standards Institution by paying an annual subscription of Rs.250/- from this year onwards. The expenditure will be met from the Revenue Funds of the Factory under "Repairs and Miscellaneous" budget grants.

Yours faithfully,

(T. SHANMUKHA)
ADDL. DIRECTOR.

PROCEEDINGS OF THE GOVERNMENT OF MYSORE.

Read:

Correspondence ending with letter No. GEF(35) 5383/55-56, dated 11/14-11-1955, from the Additional Director of Industries and Commerce, Bangalore, in the matter of the Government Electric Factory, Bangalore, becoming a sustaining member of the India Standards Institution.

ORDER No. I. 3763-5 dt 14-12-56

DATED, BANGALORE, THE ~~NOVEMBER~~ 1955.

The Additional Director states that the India Standards Institution, Delhi is doing very good work in the field of drawing up agreed standards for several materials and products used in industry and trade. It was considered essential that the Govt. Electric Factory being one of the important concern within the country manufacturing transformers, line materials, scientific instruments, etc., which are finding a sale all over India, should become a member of the Institution, ~~as it is learnt that~~ inasmuch as almost all manufacturers of repute have become its members. Further, the Factory will get the Institution's Journal free and the standards as and when they are issued which would serve as a resource for the technical staff engaged ~~to a great extent.~~ He. also affirms that it is incumbent on the manufacturer of an article to keep to definite standards of quality and no other authority exists in this countr than the Indian Standards Institution for laying down such standards. The maintenance of such standards is a necessity in the interests of all concerned and requires the co-operation of both the consumer and the manufacturer. The factory, by becoming a sustaining member of the Institution

P.t.o.

and to take note of all developments from time to time regarding standardisation of materials.

The Addl. Dir. of Ind. states that it is in the interests of the Govt. Electric Factory, it is very useful for the Factory to become a sustaining member

will have the necessary status and authority to tender its advice regarding the standards to be prescribed and this will enable the point of view of the Factory to be heard at the proper time and also to bring out the difficulties and problems which may exist in regard to the adoption of such standards. Apart from these aspects, there is also the contact provided with other manufacturers during the meetings and discussions which would enable the Factory to improve its methods of manufacture.

He adds that the Factory has paid membership subscription for one calendar year from 1954, duly approved by him and that the membership has to be renewed for 1955.

~~Under the above circumstances, he recommends~~ the Government Electric Factory ~~becoming~~ a Sustaining Member of the Indian Standards Institution by paying an annual subscription of Rs. 250/- (Rupees two hundred and fifty only) from the calendar year 1955 and onwards, the expenditure being met from the Revenue Funds of the Factory under "Repairs and Miscellaneous" budget grants.

The ~~recommendation~~ proposal of the Additional Director is sanctioned.

for Secretary to Government,
Development Department.
